We are pleased to announce that our model clubs are again co-hosting the "**Second Annual South Carolina Scale Model Mega Show**" on **21-22 June 2019** at the **SC National Guard Armory**, 1125 Bluff Road, Columbia, SC 29201. This is a wonderful venue that is co-located with **The SC Military Museum**. Please see the museum's website for info about what it has to offer, www.scmilitarymuseum.com/.

This event will again be operated as two separate model contests held in the same venue and run according to each organization's rules, procedures and judging philosophies. Modelers can enter works in one or both contests.

I am the vendor coordinator for the event, and have 50+ 8-foot tables for vendors. They are \$30 each with a \$10 per table deposit. **Last year we sold out our vendor tables and quickly filled all cancelations from our standby list.** Don't delay your reservations and risk being disappointed. Please send payment to the address above with a check made out to "**AMPS Central South Carolina.**" Advance payment in full is also welcome and will, of course, ensure your reservation. Reservations will be accepted first come, first served but are not guaranteed until we have received either your deposit or payment in full. Payment in full or deposit is due within 14 days of making your reservation.

We will list your business logo and name on our web site and at the show. Vendor setup will be available on Friday, 21 June from 4-6PM and on Saturday, 22 June starting at 7:30AM. Vendors are invited to set up during either of these windows. Vendors are also free to begin sales as soon as they set up and to close shop on their own.

The show will be open the public, Saturday, 22 June from 9AM until 5PM with **no general admission charged. Entry to the SC Military Museum is also free.** Contest info, such as registration times and entry fees, will be listed on our websites and show flyers.

This summer modeling event is well established and is now the largest in SC. This is the seventh consecutive year that the AMPS chapter has hosted a show and the third year in a row at this venue. Additionally, both the IPMS and AMPS chapters hosted their respective national / international conventions in 2016. Our clubs are both very well-known, and our events are always well patronized.

In addition to the table costs, we ask that all of our vendors donate at least one modeling related item to our raffle when you arrive to set up. If you would like to sponsor a category or award, please contact us for those details. We also promote our award sponsors on our websites and at the show.

For further details and the latest information, please see the show website at <https://scmegashow.com>.
